

To whom it may concern;

Please be advised that I purchase the services of satellite radio. It is simply wrong to hamper the ability of satellite radio to provide its paying customers with programming they need and pay for. This is one of the reasons that I purchased the equipment and paid for the service.

There is no good reason for the federal government to hamper the ability of satellite radio to provide what their audience has need of.

Your opposition to H.R. 4026 would be appreciated.
